Let's BACHA 'bout It

The Mindset List 2019

The Mindset List is released every year around the time colleges and universities start in the fall. This list aims at providing cultural contexts that shaped the lives of the students entering in the fall. For example, for this year's entering class, there has always been Google, Email has always been a formal means of communication, and Phish Food has always been a flavor available from Ben and Jerry.

For professional staff, this list can be full of nostalgia, remind us of our age, or be mind-blowing with this incoming class' cultural touch-points. However, when viewed through a student development lens, it can give us insight into the students we are working with and how to best connect with them.

What are you thoughts about the Mindset List?
